ON SITE INCINERATION

Designed for you.

APPLICATIONS...

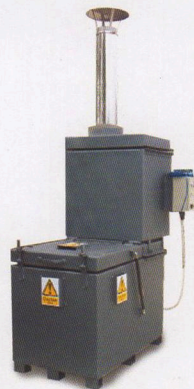

The MB240 is a top loading incinerator specifically designed to suit the needs of the poultry farmer, veterinary clinics and butchers. Although the most common incinerator in our range other sectors of the industry have found the benefits of owning an MB240, with current applications including dairy, pig, sheep and fish farms. With the added advantage of no smoke or smell problems the compact design of this model ensures space saving technology as well as offering a cost effective method for the disposal of your waste.

FEATURES & BENEFITS...

- DEFRA + DARD "TYPE APPROVED"
- Large Top Opening Lid For Easy Loading
- Fully Automatic and simple to operate control panel
- Variable time settings
- Fully insulated
- Solid Hearth to Allow Maximum Burnout
- Optional Stainless Steel Casing
- Optional Automatic Temperature Recording
- Optional Heat recovery system
- No Smoke or Smell

Model No:
MB240

Model No.	MB 240
Fuel Type	Oil
Cubic Capacity (Mtr)	0.35
Door Aperture (mm)	550 x 750
EXTERNAL DIMENSIONS	
Length (mm)	1660
Width (mm)	850
Height incl. Flue (mm)	3300
INTERNAL DIMENSIONS	
Length (mm)	1000
Width (mm)	550
Height (mm)	640
FUEL CONSUMPTION (GUIDE ONLY)	
Gallons / hour	1.4
MINIMUM OPERATING TEMPERATURE	
Degrees Centigrade	950
RESIDENCY TIME IN AFTERBURNER CHAMBER	
Seconds	2
Temperature Monitoring	YES
